FILE INSIDE OF HANDLE.

Sizes, . . . . . 3, 3½, 4, 4½, 5, 5½ and 6 feet.

(88c. per foot. Price at store, 75c.

E. M. Boynton's Lightning One-Man Cross-Cut Saw, with new Patent Handle attached, for cutting Wood, Joist, Logs and Timbers, and sawing down Trees. Complete, ready for use.

Millions of Axes are in use, where, by using this Saw, half the time would be saved and no waste of fuel occur. The above cut represents my One-Man Saw with the new Patent Handle attached, and I invite special attention to the usefulness of this invention—a want long felt. It is made five inches long, and is removable at pleasure, its object being to relieve the right hand, and instead of doing all the work with one hand, you do it with two; it lightens the work and the cutting is done quicker. It has only to be used to be appreciated.

N. B.—Saw fits in iron-grasp socket and can never loosen except when turned; it is INSTANTLY REMOVABLE.

With file in each handle, which is safely concealed by the Nickel-Plated Spring in bottom of handle. The Patent File sharpens two points of tooth at once, the edge of the file being used to gum the tooth.

"BOYNTON'S SAWS were effectually tested before the judges at the Philadelphia Fair, July 6 and 7. An ash log, 11 inches in diameter, was sawed off with a 4½-foot lightning cross-cut, by two men, in precisely 6 seconds, as timed by the Chairman of the Centennial Judges of Class Fifteen. The speed is unprecedented, and would cut a cord of wood in 4 minutes. The representatives of Russia, Austria, France, Italy, Spain, Belgium, Sweden, England and several other countries, were present, and expressed their high appreciation." Received Medal, Highest Award of Centennial World's Fair, 1876. \$1,000 challenge was prominently displayed for six months, and the numerous saw manufacturers of the world dared not accept it or test in a competition so hopeless.

REMOVABLE HANDLE.

PRICE PER PAIR, 50c.

E. M. BOYNTON'S  
CELEBRATED PATENTED

## Double-Edged Universal-Sheathed Saw, FOR PRUNING OR HOUSE USE.

For use with or without pole. The handle is provided with holes to permit of attaching it to the pole with the use of bolts. The lightning-edge teeth are for cutting the limbs, and the back teeth for cutting off the twigs. Sent by express. Price at store, N. Y., \$1.
